Eyeo Festival Volunteer  
*June 2011*  
Flashbelt Volunteer  
*June 2010*  
Minnesota Interactive  
Marketing Association  
(MIMA) Member

## UnityWorks! Media

Web Designer

December 2011 - Present

I create monthly specials for car dealerships around the county that consist of custom designs tailored for new or used vehicle or service specials. For each monthly special I create a custom design and then implement that design into the dealer's website. Also, I update content and graphics for a custom product that is used by regional Ford and Chevrolet dealers.

## Juut SalonSpa

Guest Services

June 2011 - December 2011

I provide outstanding customer service for all guests while meeting Juut's performance standards. I am accountable for the checking in / checking out of guests, offering knowledge about products and services all while upholding the Daymaker belief.

## Grandpa-George

Intern

February 2010 - May 2010

Worked with fellow interns on multiple internal projects. Was casted as Project Manger for Best Web Design Portland edition. I lead the research and collection of design agencies portion of this project as well as working with Google Maps and creating custom maps and the implementation of said maps. Performed research on custom Facebook fan pages as well as monitoring and updating fan pages and Twitter accounts for both Best Web Design and Hi-Bearnation. My final project was a series of institutional videos that were meant to show and explain important key items of both web design and development. I lead a session on designing forms as well as editing videos.

## The Art Institutes International

Equipment Cage

April 2009 - September 2011

I was an Equipment Specialist that offered basic IT support as well as knowledge about the items that were available for check out to both students and faculty. I also assisted in the updating of both computer labs, computers and the training of new employees.
